Independent Auditors' Report

To Members of the Board of Education
Berwyn South School District 100
Berwyn, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Berwyn South School District 100 (District), as of and for the period ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Education
Berwyn South School District 100

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2021, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 11, other post-employment benefits information on page 64, the Teachers Retirement System Fund pension data on page 65, Teachers Health Insurance Security pension data on page 66, the Illinois Municipal Retirement Fund pension data on page 67-69, and budgetary comparison schedules and notes to the required supplementary information on pages 70 through 84, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the other information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and the statistical tables are presented for purposes of additional analysis and are not a required part of the financial statements.

The supplementary financial information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of

To the Board of Education
Berwyn South School District 100

America. In our opinion, the supplementary financial information for the year ended June 30, 2021 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the District's basic financial statements for the year ended June 30, 2020, which are not presented with the accompanying financial statements and we expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The 2020 other supplementary information is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2020 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2020 other supplementary information is fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 22, 2021, on our consideration of the District's internal control over financial reporting and our tests of its compliance with provisions of laws, regulations, contracts and other matters. The purpose of that report is to describe the scope of testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting and compliance. The report is an internal part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis

For the Year Ended June 30, 2021

(Unaudited)

The discussion and analysis of Berwyn South School District 100's (The District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2021. The intent of this management discussion and analysis is to look at the District's performance as a whole. The management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements and notes to the financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

- Net position of the governmental activities increased by approximately \$2.4 million to \$4,384,599 in fiscal year 2021.
- Total revenues decreased by approximately \$4.4 million to \$67.7 million in fiscal year 2021. This represents a decrease of 6.5%. Property tax revenue accounts for 18.9% of total revenues.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements,
- Fund financial statements, and
- Notes to the financial statements.

This report also contains required and other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash

(Unaudited)

flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges, with the exception of the Food Service Program. The District's governmental activities include instructional services (regular education, special education and other), supporting services, operations and maintenance of facilities and transportation services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and change in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains seven individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances of the General (includes the Educational and Working Cash funds), Operations and Maintenance, Transportation, IMRF/Social Security, Debt Service and Capital Projects Funds, all of which are considered to be major funds.

Berwyn South School District 100
Management's Discussion and Analysis
For the Year Ended June 30, 2021
(Unaudited)

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

Fiduciary funds are used to account for resources held for the benefit of parties outside the school district. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that for the government-wide financial statements.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its noncertified employees.

Government-Wide Financial Analysis

- As seen in Table 1, the District's net position increased by approximately \$2.4 million.
- As seen in Table 2, the District's total revenues were \$67.7 million.

Property taxes and state evidence-based funding are still the major revenue sources for the District, representing approximately 57.7% of the District's revenue. The remainder of the District's revenues came from state and federal grants, fees charged for services and special education reimbursements.

The total cost of all programs and services was \$65.4 million. The District's expenses are predominately related to instructing, caring for (pupil services), and transporting students. The District's administrative and business activities accounted for 10.25% of total costs.

Financial Analysis of the District's Funds

The District's governmental funds balance decreased from \$41.4 million to \$40.8 million. Revenues exceeded expenditures in the General Fund by \$855 thousand, in the Operations and Maintenance Fund by \$2.6 million, in the Transportation Fund by \$72 thousand. Expenditures exceeded revenues in the Capital Projects Fund by \$1.9 million, in the Municipal Retirement Fund by \$439 thousand, and in the Debt Service Fund by \$2 million. Overall, the District's government funds had a net decrease in fund balance of \$594 thousand. The General Fund ended the fiscal year with a fund balance of \$31.5 million. There are no restrictions, commitments, or limitations on the fund balances of the District that would significantly affect the availability of fund resources for future use.

General Fund Budgetary Highlights

The District amended the annual operating budget for the year ended June 30, 2021.

The District's final budget anticipated that revenues would exceed expenditures by \$4.5 million in the General Fund and \$3.8 million District as a whole. The actual results for the year show revenues over expenditures of \$855 thousand for the general fund.

Actual revenues were \$6.3 million less than budgeted for the General Fund, primarily due to timeliness of property tax payments and both state and federal grants.

Actual expenditures were less than budgeted expenditures by \$2.6 million for the General Fund.

Capital Asset and Debt Administration

Capital Assets

By the end of fiscal 2021, the District has compiled a total investment of \$58,900,747 (less \$32,537,045 of accumulated depreciation). Total depreciation expense for the year was \$1,557,907, while additions to buildings, vehicles and equipment amounted to \$2,128,736. More detailed information about capital assets can be found in Note 5 of the notes to the financial statements.

Capital Asset and Debt Administration (continued)

The current facilities of the District adequately accommodate the District's present enrollment. The near-term future plans call for repairs and maintenance to existing facilities as the main capital needs of the District.

Long-term debt

At year-end, the District had \$55.7 million in general obligation bonds and other long-term debt outstanding, including net pension liabilities.

The District continued to pay down its debt, retiring \$2,635,000 of existing bonds.

More detailed information on long-term debt can be found in Note 6 of the notes to the financial statements.

Factors Bearing on the District's Future

The District's certified, paraprofessional, and custodial staffs are under contract through fiscal years 2022, 2022 and 2023, respectively. Property tax revenue increases are limited by increases in the Consumer Price Index.

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Berwyn South School District 100 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District is located in Cook County, Illinois. The District is governed by an elected Board of Education. The Board of Education maintains final responsibility for all personnel, budgetary, taxing and debt matters.

The District includes all funds of its operations that are controlled by or dependent upon the District, as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will and fiscal dependency. The accompanying financial statements include only those funds of the District, as there are no organizations for which it has financial accountability.

The District is not included as a component unit in any other governmental reporting entity, as defined by Governmental Accounting Standards Board (GASB) pronouncements.

B. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental and fiduciary.

Berwyn South School District 100

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Fund Accounting (continued)

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of earmarked monies (Special Revenue Funds), the servicing of general long-term debt (Debt Service Funds), and the acquisition or construction of major capital facilities (Capital Projects Fund). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the District. The effect of interfund activity has been eliminated from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues. The District considers all funds as major funds.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues instead.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Government-Wide and Fund Financial Statements (continued)

1. General Fund

The General Fund includes the Educational Fund Account and the Working Cash Fund Account. The Educational Fund Account is the District's primary operating account. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The Working Cash Fund Account is for the financial resources held by the District to be used as temporary interfund loans for working capital requirements to the special revenue fund's Operations and Maintenance and Transportation Funds. Money loaned by the Working Cash Fund Account to other funds must be repaid within one year. As allowed by the School Code of Illinois, this Fund may be partially abated to any fund in need as long as the District maintains a balance in the Working Cash Fund Account of at least .05% of the District's current equalized assessed valuation.

2. Special Revenue Funds

The special revenue funds are used to account for and report the proceeds of specific revenue sources (other than those accounted for in the Debt Service, Capital Projects or Fiduciary Funds) that are legally restricted to expenditures for specified purposes.

Each of the District's special revenue funds has been established as a separate fund in accordance with the fund structure required by the State of Illinois for local educational agencies. These funds account for local property taxes restricted to specific purposes. A brief description of the District's special revenue funds is as follows:

Operations and Maintenance Fund is used for expenditures made of operations, repair and maintenance of the District's buildings and land. Revenues consist primarily of local property taxes.

Transportation Fund accounts for all revenues and expenditures made for student transportation. Revenues are derived primarily from local property taxes and state reimbursement grants.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Government-Wide and Fund Financial Statements (continued)

2. Special Revenue Funds (continued)

Municipal Retirement/Social Security Fund accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for noncertified employees. Revenues to finance contributions are derived primarily from local property taxes and personal property replacement taxes.

3. Debt Service Fund

The Debt Service Fund is used for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. The primary revenue source is local property taxes levied specifically for debt service.

4. Capital Projects Fund

Capital Projects Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities. Revenues are derived from property taxes, bond proceeds or transfers from other funds.

5. Fiduciary Fund

The Fiduciary Fund accounts for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments or other funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Fund Balance

The Governmental Fund financial statements present fund balances based on classification that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

1. *Nonspendable* includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The nonspendable in form criteria includes items that are not expected to be converted to cash such as prepaid items or inventories.
2. *Restricted* refers to amounts that are subject to outside restrictions such as creditors, grantors, contributors, laws and regulations of other governments, or are imposed by law through enabling legislation. Special revenue funds are by definition restricted for those specified purposes.
3. *Committed* refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority (the Board of Education). The Board of Education commits fund balances by passing a resolution. Amounts committed cannot be used for any purpose unless the District removes or changes the specific use by taking the same type of formal action it employed to previously commit those funds.
4. *Assigned* refers to amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. Intent may be expressed by the Board of Education or the individual the Board of Education delegates the authority to assign amounts to be used for specific purposes.
5. *Unassigned* refers to all spendable amounts not contained in the other four classifications described above. In funds other than the General Fund, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

Berwyn South School District 100

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Fund Balance (continued)

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances and finally they act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

E. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e. intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collectible within the current period and soon enough thereafter to pay liabilities of the current period. The District considers all revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues that are paid to the District by the Illinois State Board of Education are considered available if vouchered by year-end. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

Property and replacement taxes, interest and intergovernmental revenue associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports deferred inflows of resources as unearned revenue on its financial statements. Unearned revenue arises when a potential revenues does not meet both the “measurable” and “available” criteria for recognition in the current period. In subsequent periods,

Berwyn South School District 100

NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Measurement Focus, Basis of Accounting and Basis of Presentation (continued)

when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

F. Budgetary Data

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted at the fund level for the governmental funds. The annual budget is legally enacted and provides for a legal level of control at the fund level. All annual budgets lapse at fiscal year-end.

G. Deposits and Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, certain highly rated commercial paper, corporate bonds, repurchase agreements and the money market mutual funds registered under the Investment Company Act of 1940, with certain restrictions. Investments are stated at fair value. Changes in the fair value of investments are recorded as investment income.

H. Personal Property Replacement Taxes

Personal property replacement tax revenues are first allocated to the Municipal Retirement/Social Security Fund, with the balance allocated at the discretion of the District.

I. Capital Assets

Capital assets, which include land, land improvements, buildings, building improvements, and equipment and vehicles, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$2,500 and an estimated useful life of 5 years or more. Such assets are recorded at historical cost or the estimated fair value at the date of donation.

Berwyn South School District 100

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Capital Assets (continued)

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized.

Depreciation of capital assets is provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

<u>Assets</u>	<u>Years</u>
Land improvements	50
Buildings and building improvements	50
Transportation equipment	5
Other Equipment	3 - 10

J. Prepaid Items

Prepaid items, primarily insurance premiums and maintenance agreements, are recorded at cost and amortized over the terms of the underlying agreements. Reported prepaid expenditures are equally offset by fund balance reserves, which indicate that they do not constitute "available spendable resources" even though they are a component of current net position.

K. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources, while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Berwyn South School District 100

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

L. Restricted Net Position

For the government-wide financial statements, net position is reported as restricted when constraints placed on net position use are either (1) externally imposed by creditors, grantors, contributors or laws or regulations of other governments or (2) imposed by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

M. Deferred Inflows/Outflows of Resources

Deferred outflows of resources represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred inflows of resources represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

N. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

O. Comparative Total Data

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the District's financial position and operations.

P. GASB Pronouncements

The District adopted the provisions of GASB statement No. 84 –Fiduciary Activities. As a result of implementing, the beginning fund balance of the General Fund was increased by \$45,096, which was the balance of the Student Activity Fund. As a result of GASB 84, the District will no longer be reporting Agency Funds.

NOTE 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Position

The governmental funds balance sheet includes a reconciliation between total fund balances- governmental funds and net position- governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that “Long-term liabilities included in the statement of net position are not due and payable in the current period and, accordingly, are not recognized in the governmental funds balance sheet.” The details of this difference are as follows:

General obligation bonds	\$ (26,255,000)

NOTE 2 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (continued)

B. Explanation of Certain Differences Between the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental funds statement of revenues, expenditures and changes in fund balances includes a reconciliation between net change in fund balances - total governmental funds and change in net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Net capital outlay	\$ 2,128,736
Depreciation expense	<u>(1,557,907)</u>
Net adjustment to decrease net change in fund balances - total governmental funds to arrive at change in net position - governmental activities	\$ <u>570,829</u>

Another element of that reconciliation states that "The issuance of long-term debt (e.g. bonds, leases, employee benefits) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of government funds." The details of this difference are as follows:

Principal repayments:	
General obligation bonds	\$ 2,635,000
Compensated absences	<u>42,968</u>
Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net position - governmental activities.	\$ <u>2,677,968</u>

NOTE 3 DEPOSITS AND INVESTMENTS

At June 30, 2021, the District's cash and investments consisted of the following:

	<u>Governmental</u>
Cash	<u>\$42,428,993</u>

A. Interest Rate Risk

The District's investment policy seeks to ensure preservation of capital in the District's overall portfolio. The highest return on investments is sought, consistent with the preservation of principal and prudent investment principles. The investment portfolio is required to provide sufficient liquidity to pay District obligations as they come due, considering maturity and marketability. The investment portfolio is also required to be diversified as to maturities and investments, as appropriate to the nature, purpose and amount of funds. The District will also consider investments in local financial institutions, recognizing their contribution to the community's economic development.

B. Concentration of Credit Risk

The District's investment policy requires diversification of the investment portfolio to minimize the risk of loss resulting from over concentration in a particular type of security, risk factor, issuer or maturity. The policy requires diversification strategies to be determined and revised periodically by the District's Investment Officer to meet the District's ongoing need for safety, liquidity and rate of return.

With respect to deposits, custodial risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. At June 30, 2021 the bank balance of the District's deposits with financial institutions totaled \$44,110,311. As of June 30, 2021, all account balances at banks were either insured by the Federal Deposit Insurance Corporation (FDIC) for \$250,000, or collateralized with securities of the U.S. Government held in the District's name by financial institution acting as the District's agent.

NOTE 4 PROPERTY TAX RECEIVABLE

The District must file its tax levy resolution by the last Tuesday in December of each year. The tax levy resolution was approved by the Board on November 18, 2020. The District's property tax is levied each year on all taxable real property located in the District. The owner of real property on January 1 (the lien date) in any year is liable for taxes of that year. The Cook County Assessor is responsible for the assessment of all taxable real property within Cook County except for certain railroad property, which is assessed directly by the state. The county is reassessed every three years by the Assessor.

The Illinois Department of Revenue has the statutory responsibility of ensuring uniformity of real property assessments throughout the state. Each year, the Illinois Department of Revenue furnishes the county clerks with an adjustment factor to equalize the level of assessment between counties at one-third of market value. This factor (the equalization factor) is then applied to the assessed valuation to compute the valuation of property to which the tax rate will be applied (the equalized assessed valuation). The equalization factor for Cook County was 3.2234 for 2020.

The County Clerk adds the equalized assessed valuation of all real property in the county to the valuation of property assessed directly the state (to which the equalization factor is not applied) to arrive at the base amount (the assessment base) used to calculate the annual tax rates, as described above. The equalized assessed valuation for the extension of the 2020 tax levy was \$541,954,218.

Property taxes are collected by the Cook County Treasurer who remits them to the School Treasurer. Taxes levied in one year become due and payable in two installments on March 1 and approximately August 1 during the following year. The first installment is an estimated bill, and is fifty-five percent of the prior year's tax bill. The second installment is based on the current levy, assessment and equalization, and any changes from the prior year will be reflected in the second installment bill.

The portion of the 2020 property tax levy not received by June 30 is recorded as a receivable, net of estimated uncollectibles of 1%. The net receivable collected within the current year or due and expected to be collected soon enough thereafter to be used to pay liabilities of the current period, less the taxes collected soon enough after the end of the previous fiscal year are recognized as revenue. Such time thereafter does not exceed 60 days. Net taxes receivable less the amount expected to be collected within 60 days is reflected as unearned revenue.

These payments will be made from amounts budgeted from the debt service tax levies in future periods. There is \$2,120,063 in Debt Service Fund to service the outstanding bonds payable.

The District is subject to the Illinois School Code, which limits the bond indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2021, the statutory debt limit for the District was \$37,394,841. Qualifying outstanding debt as of June 30, 2021 totaled \$26,255,000, leaving a debt margin of \$11,139,841.

In current and prior years, the District defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. The District has \$15,055,000 of defeased bonds outstanding at June 30, 2021.

General Information about the Pension Plan

Plan description

The school district participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at <https://www.trsil.org/financial/cafrs/fy2020>; by writing to TRS at 2815 West Washington Street, P O Box 19253, Springfield, IL 62794 or by calling (888) 678-3675, option 2.

Benefits provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

A. Teachers' Retirement System of the State of Illinois: (continued)

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I. Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2020. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs will begin in 2019 and will be funded by bonds issued by the state of Illinois.

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2021, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

NOTE 9 RETIREMENT FUND COMMITMENTS (continued)

A. Teachers' Retirement System of the State of Illinois: (continued)

On behalf contributions to TRS. The State of Illinois makes employer pension contributions on behalf of the district. For the year ended June 30, 2021, State of Illinois contributions recognized by the employer were based on the state's proportionate share of the collective NPL associated with the employer, and the employer recognized revenue and expenditures of \$18,892,305 in pension contributions from the state of Illinois.

2.2 formula contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2021 were \$132,446 and are deferred because they were paid after the June 30, 2020 measurement date.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the district, there is a statutory requirement for the district to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2020. Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2021, the employer pension contribution was 10.41 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2021, salaries totaling \$519,213 were paid from federal and special trust funds that required employer contributions of \$54,050. These contributions are deferred because they were paid after the June 30, 2020 measurement date.

Employer retirement cost contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members retiring under the ERO. The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the program that ended on June 30, 2016, is 146.5 percent and applies when the member is age 55 at retirement. For the year ending June 30, 2021, the district paid \$0 to TRS for employer ERO contributions for retirements that occurred before July 1, 2016.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2021, the employer paid \$3,130 to TRS for employer contributions due on salary increases in excess of 6 percent, \$2,580 for salary increases in excess of 3 percent, and \$771 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

At June 30, 2021, the employer reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the employer follows below:

Employer's proportionate share of the net pension liability	2,264,807
State's proportionate share of the net pension liability associated with the employer	<u>177,391,451</u>
Total	<u><u>179,656,258</u></u>

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, and rolled forward to June 30, 2020. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2020, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2020, the employer's proportion was .002627 percent, which was an increase (decrease) of (.00001) from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the employer recognized pension expense of \$18,892,305 and revenue of \$18,892,305 for support provided by the state. At June 30, 2021, the employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary Increases	varies by amount of service credit
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection table MP-2014. The same assumptions were used in the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Based on those assumptions, TRS's fiduciary net position at June 30, 2020 was projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate

The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Employer's proportionate share of the net pension liability	2,749,063	2,264,807	1,866,124

B. Illinois Municipal Retirement Fund

IMRF Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

NOTE 9 RETIREMENT FUND COMMITMENTS (continued)

B. Illinois Municipal Retirement Fund (continued)

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

At December 31, 2020, the following employees were covered by the benefit terms:

Number of	
Retirees and Beneficiaries	142
Inactive, Non-Retired Members	246
Active Members	124
Total	<u>512</u>

Contributions

As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2020 was 11.0%. For the fiscal year ended June 30, 2021, the District contributed \$550,721 to the plan.

The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The following are the methods and assumptions used to determine total pension liability at December 31, 2020:

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.50%.
- **Salary Increases** were expected to be 3.35% to 14.25%, including inflation.

NOTE 9 RETIREMENT FUND COMMITMENTS (continued)

B. Illinois Municipal Retirement Fund (continued)

Actuarial Assumptions

- The **Investment Rate of Return** was assumed to be 7.50%.
- **Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- The IMRF-specific rates for **Mortality** (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For **Active Members**, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

NOTE 9 RETIREMENT FUND COMMITMENTS (continued)

B. Illinois Municipal Retirement Fund (continued)

Actuarial Assumptions (continued)

• The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2020:

<u>Asset Class</u>	<u>Portfolio Target Percentage</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	38%	6.85%
International Equity	17%	6.75%
Fixed Income	27%	3.00%
Real Estate	8%	5.75%
Alternative Investments	9%	2.65-7.35%
Cash Equivalents	<u>1%</u>	2.25%
Total	100%	

Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and

Single Discount Rate (continued)

2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.75%, and the resulting single discount rate is 7.25%.

The District has benefit obligations pertaining to retired employees. The following is a summary of deferred outflows and deferred inflows of resources for the Retiree Health Plan and the Teachers' Health Insurance Security Fund (THIS):

Retiree Health Plan

Plan Description. The District administers a single-employer defined benefit healthcare plan. The plan provides the ability for retiring teacher to continue single coverage on the District's healthcare plan at the District's expense for two years or to the age of 65, whichever comes first, if they are at least age 55 and have at least 15 years of service with the District. The District pays for single coverage for two years. For 2020, there were 3 retirees who accessed postemployment benefits through the District, and 430 active employees were not yet fully eligible to retire.

Funding Policy. The District pays 100% of the premium amounts set by the District's insurance cooperative. For fiscal year 2021, the District contributed \$106,713 toward the cost of the postemployment benefits for retirees.

	Number of	
Retirees and Beneficiaries		3
Active Members		430
Total		<u>433</u>

The net other post-employment benefit liability (NOL) was measured on June 30, 2020.

Actuarial Assumptions

The following are the methods and assumptions used to determine total NOL as of June 30, 2020:

Measurement Date	June 30, 2020
Actuarial Cost Method	Entry Age Normal
Inflation Rate	3.00%
Salary Rate Increase	4.00%
Discount Rate	2.66%
Funded Ratio	0.00%
(Fiduciary Net Position as a percentage of Total OPEB Liability)	
Initial Health Care Cost Trend Rate	5.00%
Ultimate Health Care Cost Trend Rate	4.50%

Discount Rate

The discount rate under GASB 75 is required to be a blend of the long-term expected rate of return to the extent funded and the 20 year municipal bond rate. Specifically, an initial projection is made using the long-term ROR on irrevocable OPEB plan assets and, as long as the plan's net position and projected contributions associated with current participants are expected to fully cover projected benefit payments, this long-term rate may be used. For years in which the net position is not projected to cover projected benefit payments, the discount rate used is equal to the 20 year municipal bond yield or index. A single discount rate is then determined as a blend of the two rates, which produces the same discounted present value of benefits as the dual rate calculation. Since the District does not pre-fund plan liabilities, the discount rate used is equal to the 20 year municipal bond rate. This rate was 2.66% as of June 30, 2020.

THIS Fund:

The district participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription and behavioral health benefits, but it does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund. The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On behalf contributions to the THIS Fund.

The State of Illinois makes employer retiree health insurance contributions on behalf of the district. State contributions are intended to match contributions to the THIS Fund from active members which were 1.24 percent of pay during the year ended June 30, 2021. State of Illinois contributions were \$283,160, and the district recognized revenue and expenditures of this amount during the year.

Employer contributions to the THIS Fund.

The district also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.92 percent during the year ended June 30, 2021. For the year ended June 30, 2021, the district paid \$210,086 to the THIS Fund, which was 100 percent of the required contribution.

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for state OPEB support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the District is as follows:

Employer's proportionate share of the net pension liability	23,341,617
State's proportionate share of the net pension liability associated with the employer	<u>31,198,979</u>
Total	<u><u>54,540,596</u></u>

*The State's proportionate share of the net OPEB liability associated with the District is not available in the actuarial report and therefore the amount reported above is an estimate formed by allocating the State's total net OPEB liability for the entire plan (per the actuary) based on the District's proportionate share of the net OPEB liability to all the school districts participating in the Plan. Additionally, the amounts included below related to the sensitivity of the healthcare rate and discount rate are based on a similar allocation methodology.

Net OPEB Liability: The District's net OPEB Liability was measured as of June 30, 2020. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2019. The actuarial valuation was determined using the following actuarial assumptions.

NOTE 11 RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to and destruction of assets; and natural disasters. To protect from such risks, the District participates in the following public entity risk pools: the Suburban School Cooperative Insurance Pool (SSCIP) and the School Employers Loss Fund (SELF). The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that each will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pools. There have been no significant reductions in insurance coverage from coverage in any of the past three years. Settlements have not exceeded coverages for each of the past three fiscal years.

NOTE 12 REQUIRED INDIVIDUAL FUND DISCLOSURES

During the current fiscal year, the District transferred \$1,000,000 from the Education Fund to the Debt Service Fund to cover principal and interest payments on bonds. The Operations & Maintenance Fund transferred \$2,500,000 to the Capital Projects Fund to cover expenses of the fund.

NOTE 13 CONTINGENCIES

A. Litigation.

The District is involved in litigation arising in the ordinary course of business. It is the opinion of management, based on consultation with counsel, that liabilities arising from these proceedings, if any, will not be material to the District's financial position.

B. Grants.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

Changes of assumptions

For the 2020 - 2016 measurement year, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit, but the rates of increase in the 2018 measurement year were slightly higher.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

The District Implemented GASB 68 in fiscal year ended June 30, 2015, therefore 10 years of information not yet available.

NOTES TO SCHEDULE OF CONTRIBUTIONS - IMRF

SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION OF THE 2020 CONTRIBUTION RATE*

Valuation Date

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2020 Contribution Rates:

Actuarial Cost Method	Aggregate Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	Non-taxing bodies: 10- year rolling period. Taxing bodies (Regular, SLEP and ECO groups): 23-year closed period Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI. SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 18 years for most employers (three employers were financed over 27 years and four others were financed over 28 years).
Asset Valuation Method	5-Year smoothed market; 20% corridor
Wage growth	3.25%
Price Inflation	2.50%
Salary Increases	3.35% to 14.25% including inflation
Investment Rate of Return	7.25%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period
Mortality	For non-disabled retirees , an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees , an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives . For active members , an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality

Other Information

Notes There were no benefit changes during the year.

*Based on Valuation Assumptions used in the December 31, 2018 actuarial valuation; note two year lag between valuation and rate setting.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2021

1. LEGAL COMPLIANCE AND ACCOUNTABILITY - BUDGETS

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- a) The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- b) Public hearings are conducted and the proposed budget is available for inspection to obtain comments.
- c) By September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December each year, a tax levy resolution is filed with the County Clerk to obtain tax revenues.
- d) Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within a fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education after the public hearing process mandated by law.
- e) Formal budgetary integration is employed as a management control device during the year for the governmental funds.
- f) The budget amounts shown in the financial statements are as amended (June 23, 2021) by the Board of Education on effective for the year ending June 30, 2021.
- g) All budget appropriations lapse at the end of the fiscal year.

SINGLE AUDIT

Independent Auditor's Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial
Statements Performed in Accordance with Government Auditing Standards

To the Members of Board of Education
Berwyn South School District 100
Berwyn, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the basic financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Berwyn South School District 100 (District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 22, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of

To the Members of the Board of Education
Berwyn South School District 100

deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

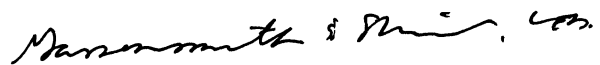

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance
for Each Major Program and on Internal Control over
Compliance Required by the Uniform Guidance

To the Members of the Board of Education
Berwyn South School District 100
Berwyn, Illinois

Report on Compliance for Each Major Federal Program

We have audited Berwyn South School District 100's (District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2021. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those

To the Members of the Board of Education
Berwyn South School District 100

requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combinations of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify

To the Members of the Board of Education
Berwyn South School District 100

any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report of Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated October 22, 2021, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on Supplementary Information

We have audited the basic financial statements of Berwyn South School District 100 (District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated October 22, 2021, which contained unmodified opinions on those basic financial statements. Our audit was conducted for the purpose of forming opinions on those financial statements that collectively comprise the basic financial statements. The accompanying Consolidated Year-End Financial Report is presented for purposes of additional analysis as required by the Illinois Grant Authority and Transparency Act and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.
