Dear Mr. George Lambesis:

The samples referenced above were submitted to our laboratory for lead analysis in drinking water in support of the Department of Children and Family Services Policy Guide 2017.13, "Lead Testing of Water in Licensed Day Care Facilities". Details of the samples collected are noted in the following pages and on the enclosed chain of custody form.

The results of the sample analyses are detailed on the following pages. Sample results that begin with a "<" do not contain lead above the reporting limit listed in parts per billion (ppb). Results without a "<" are positive for lead at the concentration listed.

All Quality Control criteria as outlined in the methods and current IL ELAP/NELAP have been met unless otherwise noted. QA/QC documentation and raw data will remain on file for future reference. Our accreditation number is 100292 and our current certificate is number 004324: effective 02/27/2018 through 02/28/2019.

I thank you for the opportunity to be of service to you. Should you have any questions regarding any of the enclosed analytical data or need additional information, please contact us at (630) 778-1200 or firstinfo@firstenv.com. More information can be found at www.dph.illinois.gov/topics-services/environmental-health-protection/lead-in-water.

Sincerely,

Lorrie Walker
Project Manager
